Belgian-Estonian business network event features ‘Belgian Jaanipäev’

Chambre of Commerce and ImpactBuilders will be talking about a Belgian-Estonian business win-win

On Wednesday June 30, 2021, a selective group of founders, startup leads, investors, C-level managers and officials from mid-field organisations are invited to old town Tallinn, at the offices of the Belgian serial entrepreneur Jan Lagast.

“After the warm welcome at the Estonian Jaanipäev last week, I decided to return the favour and create a ‘Belgian Jaanipäev’ event for our network contacts,” announces Jan. “We will receive our guests in the way I remember it from the time my parents were receiving business guests at our home in Antwerp. We are now scouting the food stores to get all the typical ingredients for a Belgian-style buffet, and we hope that this personal touch gets appreciated.”

At the event both Piret Potisepp from the Estonian Chambre of Commerce and Industry, and Jan Lagast, founder of ImpactBuilders, will give a small speech on how a Belgian-Estonian cooperation could create a win-win for both countries.
